Best Practice 2

1. Title of the Practice

- News Paper Reading Hour

2. Objectives of the Practice

- To develop communication, comprehension and pronunciation skill effectively
- To keep the students up to date in what's happening around us and even to enhance the general knowledge.
- To realize the meaning of words in isolation and in context and to improve their vocabulary.
- To prepare the students for effective participation in the social, cultural and political life and also face the competitive exams, interviews with confidence.

3. The Context:

- Reading is primarily an intellectual activity of learning new things, developing new ideas and it provides a sense of completeness.
- Lots of information incorporating current affairs, politics, science and technology, education, health, medicine, sports, industry and the markets are received through newspapers.
- Since most of our students are from Tamil medium and rural background, they are lagging in Communication skills. Also, the current

generation is addicted to smart phones; they do have the habit of reading the newspaper daily.

- Adding newspaper hour in the regular academic timetable helps them a lot in improving their communication skills.

4. Implementation:

- MAIET has introduced a minimum of one hour Newspaper reading hour in regular time table.
- Newspapers are usually received in the campus usually by 8.00 am from the Hindu office, Pudukkottai directly. Newspapers are distributed to the students at the start of the hour.
- During the last few minutes, the students will be asked randomly to read any paragraph in front of others or portray the news they have read.
- To encourage the students, marks will be given to the students based on the way they pronounce the words, speed of reading. The students are also asked to explain the news they have read to know how they interpret the news.

5. Evidence of Success:

- By reading newspapers regularly, the reading and comprehension abilities of students get enhanced and they could easily face the interviews.
- This Practice is highly appreciated by our alumni students in alumni meet. They requested the management to continue this practice for their juniors also so that they would also be benefitted. Parents also encouraged and reflected the benefits of the newspaper hour their son/daughter had in parents meeting.

6. Problems Encountered and Resources Required:

- Students are convinced by proper counseling by making them realize the facts that communication is much important in bringing their skills to Practice.
- They are also made to realize that engineers are meant to work for the society. And unless they understand the society, things would not happen. Newspaper reading would help to understand the society in a much better way.
- In very few days, newspaper had not arrived the campus on time due to traffic issues and some other factors. Later on it is rectified by contacting the Hindu office and insisting them to alleviate these kinds of issues.
